Microsoft 365 Consultancy

Option A:

Online Consultancy

InvestinU offers a personalised Microsoft Office 365 service to your company's employees. This service enables your employees to ask their day to day Office related questions to an experienced, approachable, professional trainer and consultant who is available online via Microsoft Teams.

We provide expert advice on Word, Excel, PowerPoint, Outlook, Teams, Access and Visio.

Whether your staff work remotely or in the office, we can offer from 5 to 20 hours per month of expert advice and consultancy depending on which package suits your needs best.

All the below packages are based on a monthly subscription:

Option B:

In-Person Consultancy

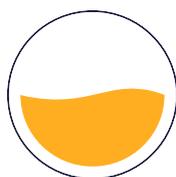

Would you prefer to work with an expert on site?

No problem, at InvestinU, we can provide you with your very own expert who can answer all those Microsoft Office 365 questions that you just can't quite get the hang of.

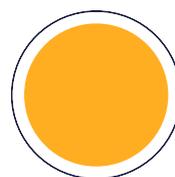

So how does it work?

Your company books a half or full-day session with an expert. This can be delivered onsite or remotely depending on preference. Individual staff and teams can then book pre-allocated time slots. Time slots can be anything from 15 minutes to half an hour depending on your requirements.

During these sessions, you and your team can go through your day to day files and ask our professionals any Microsoft Office 365 questions you need help with.

Half Day Session

Full Day Session

Microsoft 365 Webinars

Online webinars are a fantastic way to train remote teams that are working from home, based in several different locations or even different countries simultaneously.

Off the Shelf or Customized Webinars? You choose!

We offer customisable webinars tailored to your company's needs. We'll even do the webinar using your company's files to allow your employees to fully understand and utilize what they learn.

Employee Training

Train 1 to 250 employees for just one registration fee.

Efficient Training

Don't lose an entire day to training – it only takes about an hour.

Best Techniques

Get techniques and strategies you can use immediately.

Online Sessions

World-class trainers from the comfort of your desk.

Microsoft 365 Combo

Microsoft 365 Consultancy + Microsoft 365 Webinars

Get the best of both worlds when you choose a combination of webinars with one-to-one advice from an expert.

With Microsoft 365 Combo, you can book an Microsoft 365 Webinar and then follow it on a couple of days later with our Microsoft 365 Expert Advisory Session.

This way not only will your teams be empowered with new knowledge in a shorter time frame, but will also get the chance to implement their new skills and ask questions with an expert on a one-to-one basis.
